We Are Speaking Technology Ever Since!

MESSAGE FROM DESK OF HOD

MS. MITAL PATEL

I am pleased to present the 5th issue of "THE SANGANAK," our half-yearly newsletter for the academic year 2023-24 from the Department of **Computer Engineering & Information Technology**.

Reflecting on the accomplishments of the past semester fills me with pride as we celebrate the significant strides made in our department. Our students have excelled in academics, cultural and various competitions, showcasing our dedicated commitment to excellence.

Furthermore, I am delighted to announce new initiatives aimed at enriching our academic offerings. This academic year marks the launch of a Bachelor of Engineering program in Information Technology, designed to equip our students with cutting-edge skills and knowledge.

Additionally, our faculty's dedication to research and innovation continues to elevate our academic environment, positioning us at the forefront of technological advancements.

Moreover, we recently celebrated the graduation of our first batch of Diploma Engineering students in May-June 2024. Many of these graduates are now preparing to transition into Degree program.

Looking forward, we remain committed to cultivating a supportive and enriching educational experience for all our students. Together, we will continue to advance the field of computer engineering & Information Technology through collaborative efforts.

CODING NINJAS CLUB ACTIVITY

Introducing the Coding Ninjas Club at UPL University of Sustainable Technology. Our mission is to nurture coding skills, promoting collective growth from the basics. Open to all enthusiasts ready for a journey of exploration, innovation, and collaboration. Led by Jeet Solanki, BE Computer Sem 4 student, guided by Mr. Awadh Singh (Assistant Professor on ad-hoc), let's build a community initiating the path to innovation together. Approval received on 19/01/2024. Stay tuned for future updates.

COMPUTER SOCIETY OF INDIA (CSI) SURAT CHAPTER

An Expert talk was arranged under CSI Surat for the students of CSI Student chapter and other students of Diploma and Degree Computer Engineering on 19th of January 2024. The topic of the expert talk was Introduction to Ar-Vr and the talk was delivered by Dr. Abhishek Kumar Senior Instructor National Institute of Design-Andhra Pradesh.

SSIP (AT INSTITUTIONAL LEVEL)

UPL University of Sustainable Technology SSIP Startup Cell was inaugurated by Bharuch District Collector - Mr. Tushar Sumera where the President of the UPL University – Mr. Ashok Panjwani, Provost - Dr. Srikanth J. Wagh, Registrar - Shri. Dharmesh Patel, SSIP and Startup Coordinator - Shri. Jignesh Joshi, Dean of various departments of the UPL University and other senior officials were also present. Startup Project "AI Based Home Automation Robotics (ABHAR)" from DE CO sem 6 was presented. The startup team was guided and encouraged by the Mr. Tushar Sumera, Bharuch District Collector.

Students who qualified at Shark Teens Competition at University Level showcase their ideas in Scrutiny meetings in front of panel of judges. Five students from Diploma Computer 6th semester comprises of a team got qualified for the same.

RECENTLY SINGED MOUS

The department of Computer Engineering has proceeded MOU between UPL University of Sustainable Technology and **Grow Developer, Surat** on 11th March 2024.

The MOU will provide our students with a variety of opportunities for exposure through expert talks, industry visits, internships, placements, and workshops.

The department of Computer Engineering has proceeded MOU between UPL University of Sustainable Technology and **Precise Developers, Ahmedabad** on 16th March 2024.

The MOU will provide our students with a variety of opportunities for exposure through expert talks, industry visits, internships, placements and workshops.

STUDENT PARTICIPATION

The Nature Club of UPL University, the Department of Environmental Science & Technology, and the Institution of Engineers (India) (IEI) Students' Chapter (393135/SRIC/EN), in association with IQAC, organized an Article Writing Competition, "Pen the Planet: Writing for Environmental Harmony," on 30th January 2024, on the topic "Living Sustainably in Harmony with Nature." Jahnavi Tiwari from BE CO 6th sem got 2nd rank.

Congratulations to Jahnavi Tiwari, BE Computer Engineering (sem 6) for securing the 1st Rank in the "SciThought" event during Science Week 2024 organized by SRICT-Institute of Science & Research. It's a remarkable achievement!

STUDENT PARTICIPATION

In recognition of outstanding performances, AlgoZenith has graciously extended its appreciation by offering exclusive swags to exemplary students. Mahi Varde, a rising talent (Diploma in Information Technology 1st year), Khushi Pancholi and Madhvi Wagh, (Bachelor in Computer Engineering 1st year), and Abdullah Chaudhary, (Diploma in Computer Engineering 3rd year), stand out for their remarkable contributions and achievements under GDSC UPL University.

On 30th January 2024, Prem Mistry, GDSC Lead (BE CO Sem 6) had the honour of being personally invited by *Google India* to an exclusive workshop on Duet AI for developers, hosted by the esteemed Romin Irani, Developer Advocate, Google Cloud.

The Workshop was filled with opportunities to explore the intricate world of *Duet AI* within the iconic *Google's Mumbai office*.

GLIMPS OF WINSTINCT 24

(15/02/2024 TO 17/02/24)

Box Cricket

Cricket

Carrom

Badminton

During the WINSTINCT, students enthusiastically participated in various sporting activities, showcasing their athletic abilities and sportsmanship. The event provided a platform for students to engage in friendly competition and promote physical fitness and teamwork. Several students demonstrated exceptional talent and dedication, emerging as winners in their respective games and events. Box cricket for girls provides a fun and exciting opportunity for girls to participate in cricket in a more accessible and controlled environment, fostering teamwork, sportsmanship, and skill development.

STUDENT PARTICIPATION

Windows 5.0

FACULTY PARTICIPATION

A Faculty Development Program on "Recent Advancements and Future Trends in AI and NLP" in online mode (15th to 19th April, 2024) organized by the Computer Science & Technology Department at the Global Institute of Science & Technology-Haldia, West Bengal. Mr. Uddyalok Chakraborty actively participated and engagement during the program were commendable. The organizers are confident that the knowledge and skills gained during the sessions will positively impact his professional journey and benefit his students.

Ms. Anuja Gunale has participated in a One Week Workshop on "Industrial Approach to Internet of Things and Its Research Challenges", organized by the School of Electronics Engineering, at VIT-AP University, Amaravati from 20th March 2024 to 26th March 2024.

FACULTY PARTICIPATION

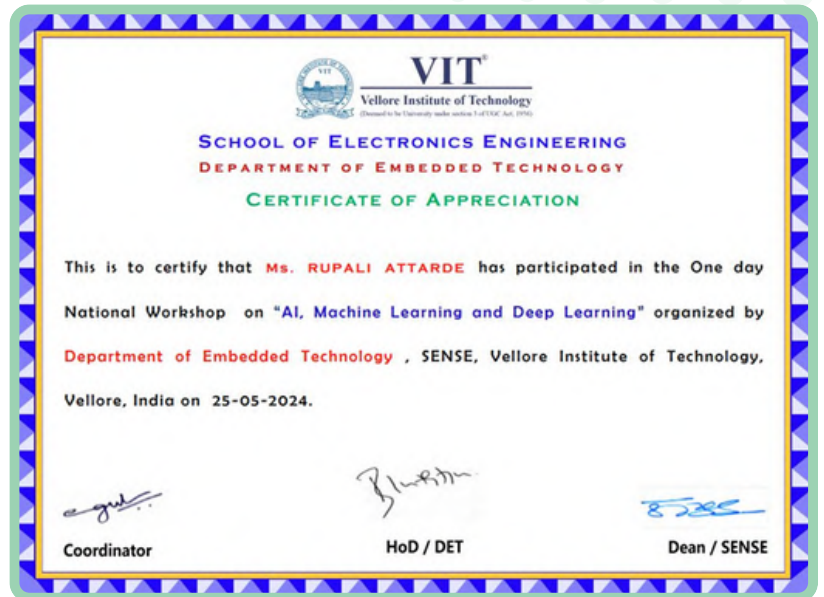

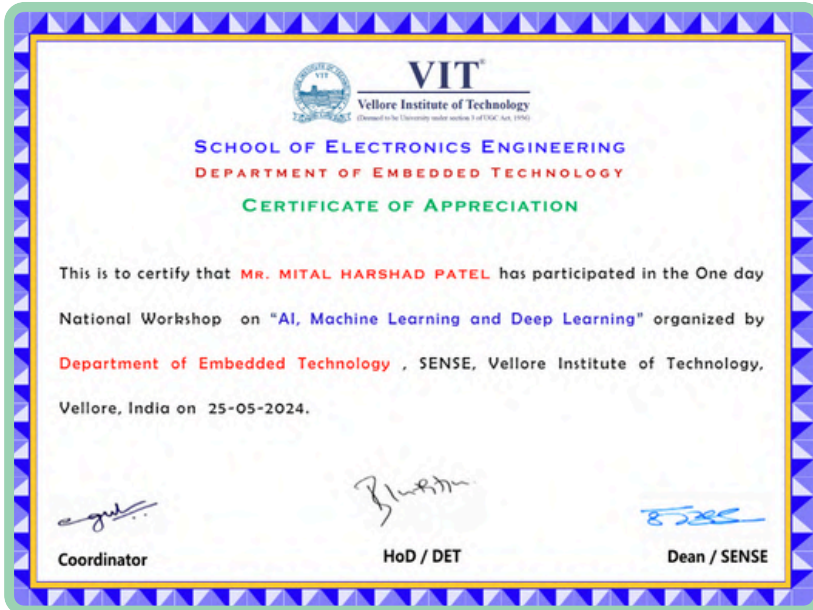

Mr Nitin Patel completed one week FDP on "Artificial Intelligence and Generative Models" organized by Department of Information Technology, Vishwakarma Institute of Technology, Pune from 15th Jan to 19th Jan 2024. FDP Was done online mode on zoom platform.

Ms. Anuja Gunale published a book titled "Blockchain for Business Strategies and Implementation" on May 24, 2024, through COSMAS Scientific Publications. In this comprehensive guide, she delves into the basics of Blockchain technology, including its history, mechanics, and underlying principles.

FACULTY PARTICIPATION

Ms. Mital Patel & Ms. Rupali Attarde attended one day workshop on "AI, Machine learning and Deep learning on 25th May. 2024.

FACULTY PARTICIPATION

Mr. Awadh Singh & Mr. Nitin Patel completed one week FDP on "Recent trends on multidisciplinary research" organized by Department of Computer Engineering, Vishwakarma Institute of Information Technology, Pune from 29th April to 3rd May 2024. FDP Was done online mode on Zoom Platform.

POEM

GOOD THINGS

I ONCE HEARD AN OLD MAN SAY THAT,
SHAPING YOUR VASES OUT OF CLAY,
INTO SUBTLE FORMS SUBLIME,

"LISTEN, SON, GOOD THINGS TAKE TIME."

ALL MY LIFE I'VE THOUGHT OF THIS
WHEN A TASK WAS LACKING BLISS,
WHEN THE WORK SEEMED AWFULLY TOUGH,
AND I THOUGHT I HAD ENOUGH.

SO I'D GIVE A LITTLE MORE
TO WHAT SOMETIMES SEEMED A CHORE;
AND, YOU KNOW, WITHOUT A DOUBT,
GOOD THINGS ALWAYS CAME ABOUT

Janvi Gangvekar
D.E. Sem 6

The Rise of Generative AI: Unleashing Creativity and Innovation

Generative AI represents a groundbreaking advancement in artificial intelligence, enabling machines to create content that is remarkably human-like. This includes generating text, images, music, and even entire virtual environments. By leveraging deep learning techniques, particularly generative adversarial networks (GANs) and transformers, generative AI is transforming numerous industries and pushing the boundaries of creativity and innovation.

- **What is Generative AI?**

Generative AI refers to a subset of artificial intelligence focused on creating new data from existing data. Unlike traditional AI, which focuses on recognizing patterns and making predictions, generative AI creates novel outputs that mimic the patterns in the training data. This is achieved through models such as GANs and variational autoencoders (VAEs) for image and video generation, and transformers like GPT-4 for text generation.

- **Key Technologies Behind Generative AI**

1. **Generative Adversarial Networks (GANs):** Introduced by Ian Goodfellow and his colleagues in 2014, GANs consist of two neural networks: a generator and a discriminator. The generator creates new data, while the discriminator evaluates it against real data. The two networks train together, with the generator improving its outputs to fool the discriminator. This adversarial process leads to highly realistic creations, such as deepfake videos and photorealistic images.

2. **Transformers:** Transformers, particularly models like OpenAI's GPT-4, have revolutionized text generation. These models use a mechanism called self-attention to understand the context and relationships between words in a sentence. This enables them to generate coherent and contextually relevant text, making them invaluable for applications like chatbots, content creation, and language translation.

- **Applications of Generative AI**

Generative AI's capabilities have unlocked numerous applications across various fields:

1. **Content Creation:** Generative AI can produce high-quality written content, graphics, and videos. Writers and marketers use AI tools to generate articles, social media posts, and creative ads, enhancing productivity and creativity.

2. **Entertainment:** In the entertainment industry, AI-generated music, scripts, and artwork are becoming increasingly common. Video game developers use AI to create dynamic environments and characters, providing richer and more immersive experiences.

TECHNICAL ARTICLE

3. Design and Fashion: Designers leverage generative AI to create unique patterns, products, and virtual fashion shows. AI-driven design tools assist in generating innovative ideas and prototypes quickly.

4. Healthcare: Generative AI aids in drug discovery and medical research by simulating complex biological processes and generating molecular structures. It also helps create synthetic medical images for training and improving diagnostic models.

- **Challenges and Future Prospects**

Despite its impressive capabilities, generative AI faces several challenges. Issues such as ethical considerations, intellectual property rights, and the potential for misuse (e.g., deepfakes) need to be addressed. Ensuring the responsible use of this technology is crucial. Looking ahead, generative AI holds immense potential. Advancements in AI research will continue to enhance the quality and diversity of generated content. As generative AI becomes more integrated into various industries, it will drive innovation, streamline workflows, and unlock new creative possibilities.

- **Conclusion**

Generative AI is a transformative force that is redefining creativity and innovation across multiple domains. By harnessing the power of advanced machine learning models, generative AI not only augments human capabilities but also opens up new frontiers for exploration and expression. As we navigate the ethical and practical challenges, the future of generative AI promises to be both exciting and impactful.
