Vice President's Message

I hope you are reading this with good health. In current situation we need to hold together and find a way to fight against COVID-19, and most importantly get vaccinated. I get an immense pleasure to present you 5th edition of this bulletin.

This is a great initiative taken by our institute to connect with alumni. Alumni is that section of institute that helps organization grow in all terms.

There are many reasons for the alumni of SRICT to be proud of our Institute - Our historic mission, with a visionary commitment to welcome all who enter its gates regardless of gender, race or religious affiliation. It is our badge of honour that binds us to our Institute. I am proud that my alma matter is now known as 'UPL University of Sustainable Technology'. I am taking this as my responsibility to strengthen the bond between alumni and institute. We are starting this journey with a trip to meet our alumni. Also, you can connect for all types of technical or non-technical guidance. I would like to thank whole SRICT management, Principal and faculty members for their guidance in this journey. Lastly, I would like to conclude with an invitation to join SRICT Alumni Associate on social platforms.

#ProudToBeSRICTian

Shipra Gupta (Alumni from Chemical Engineering adm. Batch 2014)

SPOT LIGHT – ALUMNI ACHIEVEMENT

CONGRATS !
On your new job

(from Env. Sci. & Tech.,
2013 adm. batch)

Started working as
Management Trainee
at Geocycle India

ABHISHEK JAIN

(from Chemical engg.,
2011 adm. batch)

Started working as Sr.
Executive Process
safety management at
TRANSPEK INDUSTRY

VISHWA JOSHI

(from Env. Sci. & Tech.,
2012 adm. batch)

Started working as
Executive at ADAMA
India

Congratulations
VATSAL DAVE
(alumni from Mechanical
Engineering)
For becoming certified
Confederation of
Indian Industry SCM
Professional

the Journey

Hello!

I am Nishant Sharma, I have completed my B.E. (Electrical Engineering) in 2017. I feel proud to be an alumni of SRICT, Our college is well known for its quality teaching-learning, placement, laboratories, and all other professional as well as extra-curricular activities.

Nishant Sharma,
from Electrical Engg. 2013 adm. batch

As an SRICTian, I got exposure to inter-college technical programs, industries, seminars, paper presentations, etc. I also got a chance to interact with my juniors while performing PLI's, expert lectures & clearing their doubts.

After completing my engineering, I started my career with Zydus Cadila Healthcare Limited as GET where I enhanced my skills. After successfully completing my training I was absorbed in a company and worked as Sr. Executive. In our organization, 5S was started under the guidance of the QCFl committee which was also having one of our faculty Dr. Purvi Naik. I was having the advantage that as SRICTian, I was familiar with the concept of 5S so I was also part of 5S committee in my organization.

Many students of our institute has undergone industrial internships under my guidance which is the best feeling for me, whatever I have gained from my institute I have taught them also. As an alumnus, it is a moment of exuberant feeling.

Currently, I am working with Hikal Limited. I am also pursuing Executive M.tech in Artificial Intelligence from IIT Jodhpur.

I am having the pleasure to be an alumni member of SRICT, as everyone easily recognizes us & also praises our institute for its vibrant culture.

the Journey

Hi!

I am Sagar Patel. I completed my B.E in Chemical Technology specialization in Polymer and Rubber Technology. After completing my B.E I was placed with Gujarat Fluorochemical Limited, Dahej as a GET. Now I am working as Engineer in the process department in Dispersion Polymerization Plants.

I miss my college days. The values inculcated within me during my four years journey is helping me today. I am Thankful to the management of college, Principal, Dr. Bishnoi, Ms. Monika and all faculty members of Chemical Technology department, who supported in me to enhance knowledge.

At SRICT, I made many friends. So I am also thankful to my brothers (so called friends that I meet during college) Mihir Shah, Kamajeetsinh Dayma, Tejas Padhiyar, Mitesh Naik, Tarunsinh Raj, Piyush Parmar and Mitul Patel. I share very strong bond with these friends and they always supported me in my studies and other activities.

I've found that this short journey after completing B.E. has been incredibly amazing. I look forward to staying connected through Alumni Association.

Alumni Talk

Shroff S R Rotary Institute of Chemical Technology is known for turning pages and moving on to new chapters in the book of achievements and accolades. But this time it is quite different. The pages have turned and the title reads "UPL University of Sustainable Technology".

VANSHIKA RANA

Our college has always seen to it that the courses that are taught to us include, but are not limited to the syllabus dictated by the university. And now that the university is our own, I'm sure that the new courses that have been added will not only help students to have a good grip on the technical aspects, but also help them understand the industrial know-how of the concepts in books. New courses like Computer Engineering and various diploma engineering courses like Fire Safety and Technology are in step with the needs of the current times. I am sure these new additions will bring new glory to the college and the nearby areas. We know that is the dream of teachers and the college in general that students go out in the world and achieve great success in their respective fields. In the same way, it is also the wish of the students, to see their alma mater reach new heights and expand its horizon. So with that wish in my heart, i wish SRICT (now UPL UST) great success and that such new chapters keep getting added to the book of its glory .Here's to new beginnings.

Vanshika,
*EST alumni
from 2017 adm. batch*

*Reconnecting with old mates..
Happiness is meeting out old college friend and feeling that nothing has changed. It is already over 5-years since we graduated. I met my friends (from the left: me, Sagar, Abhay, Lax and Pranish) on a cup of tea, cherishing memories of our college days.*

- Jignesh Patel (Chemical Engineering Alumni from 2012 adm. batch)

SRICT is the place where we have learned so many things which helps us to thrive and succeed in the world today. The best thing we have experienced is the power of "Team work" that we have experienced through this journey at SRICT.

Whether it's an exam, viva, event or competition, the environment and the culture of SRICT always teaches us how to work through coordination. Today's world is the world of competition in which big results can't be achieved without teamwork and harmony. The faculty of SRICT always makes us believe that "Teamwork is the secret that makes common people achieve uncommon goals".

Today, we are achieving big outcomes in our professional and personal life through the learning of this journey at SRICT. Thank you SRICT.

- Darshan S. Parmar (on behalf of Mechanical Engineering, adm. Batch 2013)

Alumni Talk

**DEEPAJ
PATIL**
GET, UPL

New Beginning..

Hi, I am Deepraj from 2017 admission batch of chemical engineering. It has hardly been a month since I joined UPL as GET. In my early days, I experienced the benefit of being a student of SRICT.

Within a week of my joining, we were given the task of working on 5S as the audit was due. Our leader briefed us about 5S and he was happy to learn that I was already aware of the concept. He asked me to take a lead and explain the same to peer GETs.

- Deepraj from chemical engineering, adm. batch 2017

WHAT'S HAPPENING ON CAMPUS

Orientation program – welcoming new entrants to college

Selfie contest on “Back to my Campus with all safety measures”

WHAT'S HAPPENING

ON CAMPUS

National Assessment and Accreditation Council (NAAC) peer team visited SRICT on 25th and 26th August. The committee had a common meeting with present students and ALUMNI members

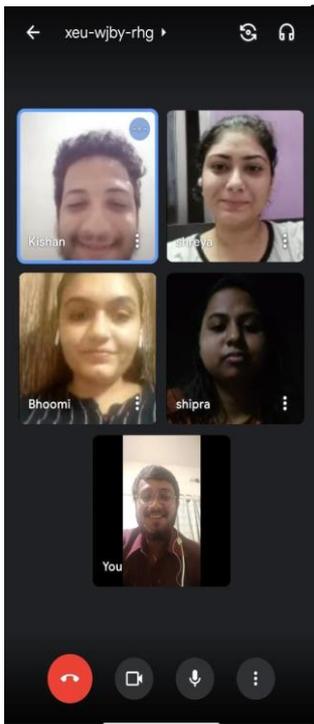

Celebration of Independence day. National Flag Hoisted at the hands of President of Rotary club of Ankleshwar, Rtn. Jignesh Patel

One of the Flagship events of SRICT, felicitation and farewell program, ABHYUDAY-2021, was organized online to felicitate the final year students for their GTU results of 8th Semester, Summer-2021

Wishing all the budding engineering and fresh alumni members, all the best

Activities

Meeting of Board Members

Board members have planned for one day Alumni members trip to ORSANG RESORT. We were happy to see response from over 100 alumni members. Visit is planned on 05th September 2021. Interested alumni members can contact us latest by 01st September.

We are also planning for ALUMNI LECTURE SERIES. Interested alumni (from admission batch 2011, 2012 Or 2013) as resource person can come forward and contact us on setu@sriect.in

ALL-ALUMNI PICNIC

Hello Friends,

Lets have some fun together. We SETU Alumni Association are planning for one day trip at Orsang Nature Camp on this 5th of Sept.

If you want to recall the college memories with old buddies then do register with the nominal amount of 1300 on Gpay No. 8866985360 **BEFORE 1st of SEPTEMBER AFTERNOON**. Also confirm the same on guptashipra5397@gmail.com

We would be happy to discuss the full day schedule and plans for the Orsang day, if you wish to know the same kindly join our whatsapp group

<https://chat.whatsapp.com/CKuBKxs0AVFikvLCMkPzGU>

Few important points to be taken care of:

1. The vaccination  certificate is must to carry!
2. Please enter your name, branch and passout year while transferring amount through Google Pay.
3. Pass it On to your friends/group

Team SETU

Activities

An experience sharing session was conducted in the mechanical engineering department for the students of 3rd semester on Google Meet. The lecture was scheduled from 03:00 p.m. to 04:30 p.m.

Immediate past president of Alumni association, Mr. Hamza Shaikh (Lead Planner, Planning Department, UPL Ltd.) talked about “Career Horizon After Mechanical Engineering”. The association invites other alumni members to come ahead and contribute in shaping alma mater.

From the desk of editors

Hello happy soul, Hope you are doing well and staying safe! I am so glad that our beloved SRICT would be now recognized as UPL University. Feeling proud to be a part of it. This bulletin of Alumni connect includes regular activities of the Alumni association. Also, it covers the updates and achievements of our classmates/friends/seniors. A huge thanks to all the alumni for sharing their experiences which motivates and inspires us. We are also planning for few alumni involvement activities through which we can all can reconnect and rejoice our golden memories back again. Having any ideas/opinions or experiences to share? Kindly do write us at setu@sriect.in Be an engaged alumnus..

- Shreya, Editor, Alumni Connect
