Alumni Experience sharing

Hello everyone, I am Mitesh Naik from Vadodara.

I have completed my bachelors in Chemical Technology from SRICT in 2019. After the completion of my study, I was placed from college placement in GFL (Gujarat Fluorochemical limited), Dahej as trainee engineer.

Currently I am working as lead executive in GFL- 2 project side , Dahej which is new growing side of Gujarat Fluorochemical limited.

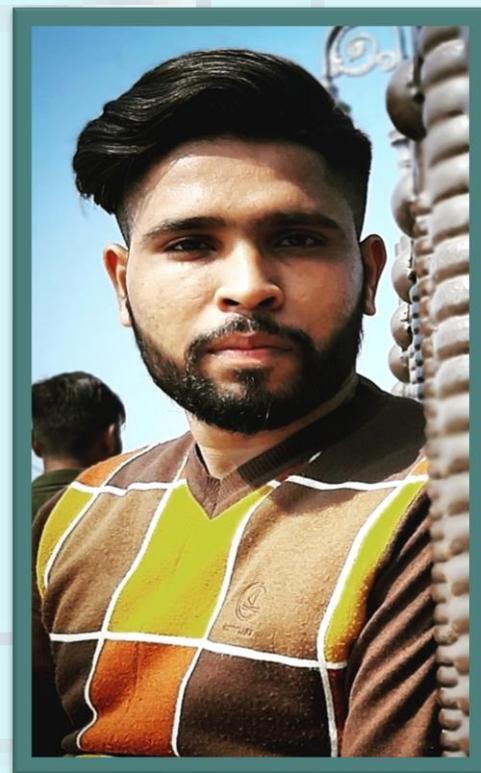

Currently, the situation is not good due to COVID-19 pandemic and all are facing some or other problem.

As a proud alumnus, we would always avail ourselves to serve for society in the way we can.

I do miss my batch mates, faculty members and college. And specially I miss that whole collage life with my brother group. Who always support me.

Also it's proud moment for all SRICT students as our beloved college is granted as UPL university.

Just Be calm and stay safe in this pandemic situation. Whatever you want you will but just believe in your self.

Mitesh Naik
Chemical Technology
Admission batch 2015

ALUMNI TALKS

Hello Everyone, I am Pratik Ojha , (EE Batch 2014),

Talking about my college life, I had enjoyed my college life to the fullest and had some best college days of my life. I was the student of one of the most reputed college Shroff SR Rotary Institute of Chemical & Technology (SRICT).

I have completed my BE in Electrical Eng. in 2018. SRICT is one of the renowned and best colleges of Gujarat University. Built-in a larger area, it has started Diploma, BSC & MSC with an outstanding academic recordful campus with many streams.

Pratik Ojha
Electrical Engineering
Admission batch 2014

When I took admission in SRICT in June 2014, I was really afraid as all the people were new to me. But soon, I started enjoying my college life and made some fantastic friends. I loved everything about my college and participated in many events at my college. Even I joined the Reva Fest and Tech Fest like events and got certificates and medals.

One of the best things about college life is that you get a new experience every day. In my college life, along with study, me and my friends enjoyed a lot of other things. We Visited lots of Industries in every semester, had new experiences and learned many new things related to our stream. SRICT also organized many experts from reputed industries to share their knowledge and Idea with us.

The Training and placement cell of SRICT is remarkable for every student, It gives 100% placement guarantee to every eligible student. I also got placed through it in one of the reputed industry.

ALUMNI TALKS

Hi everyone!

I am Rajpal from chemical engineering, admission batch 2014.

I recently shifted to Canada for my further education. I have seen ups and downs in my life. In the initial phase, after completing B.E., I started working at BEIL.

After serving for two years, I wanted to shift to Canada for future studies, but I faced medical urgency and had to be with family during the crunch time.

It was a difficult time in my life. But, faith in God and a never-give-up attitude helped me to overcome that phase. Later, I started planning for my masters' education, but the pandemic resisted the smooth formalities. Finally, I shifted to Canada in 2020, which was a horrifying year for many due to the pandemic.

I was excited and anxious to be in a new place, a new country. I was made comfortable by friends in Canada. A lot of our SRICT alumni extended helping hands when it was needed. I thank all my friends for helping me settle in a completely new place. I have learned from my four-year journey at college to keep following ethics and an attitude of never giving up. Upholding the legacy, I assure through this message in a newsletter that I will always be available as an alma mater and helping students of upcoming batches.

I am looking forward to connecting to many through alumni activities.

Rajpal Mataida
Chemical Engineering,
Admission batch 2014

WHAT'S HAPPENING

ON CAMPUS

MOU signed between Tatvamasi Automation Pvt Ltd and UPL University of Sustainable Technology on 11th Oct, 2021.

MoU signed between UPL University of Sustainable Technology and PTS Automation Pvt Ltd.(formerly known as Power Tech Systems) on 30th September, 2021.

Industrial expo visit for all 3rd semester students at Dahej Industrial Expo 2021 on 27/10/2021. This expo is the first kind of physical visit for these students after COVID 19

One day seminar on the topic "Energy Audit and safety in Industrial Boiler" organized jointly by Cente of CoE and ECC. Alumni Vivek Agrawal, from Mechanical Engineering, adm, 2012 batch receiving certificate.

Industrial visit M.Sc. Sem 1 at BEIL and ETL for students of on 16/09/21

Activities

**Our 1st episode
of Alumni's
Chapter meet**

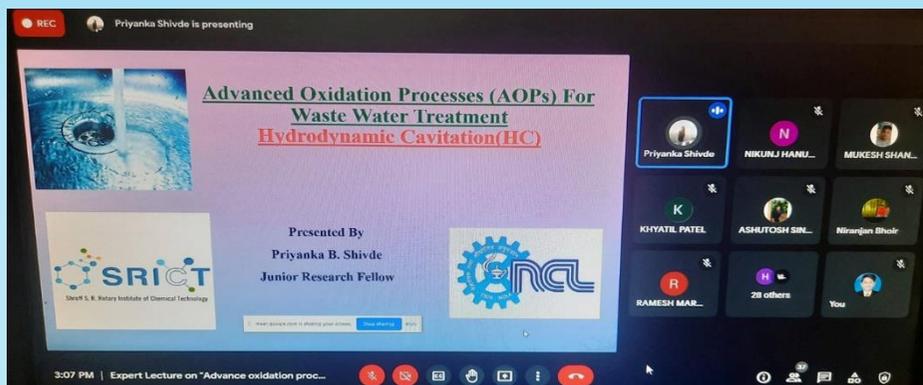

**Will be released on
1st November 2021**

**So, Don't
forget to like,
share,
subscribe and
participate**

A guest lecture by proud alumni, Priyanka Shivade, Research fellow, NCL Pune (and our alumni from admission batch 2012, Chemical Technology department). She talked on on "Advance oxidation processes for waste-water treatment" on 08/10/2021 for all semester B.E. Chemical Tech. students.

Activities

BOG meet at Bharuch

From the desk of editors

Nice to inform you all that the alumni association is very active with a flurry of activities. This association proves to be real strength and an asset to the institute. A strong network of alumni is really necessary for the exponential growth of the institute. Now, the association needs to work even harder in a more inclusive way as the institute has culminated into the university status. The institute is also now accredited with NAAC B++ grade. Starting from arranging placements, training, internships for the students to the consultancy projects, research projects for the institute, everywhere this association has the potential to carry out pivotal role for the widening of the reputation of the institute across length and breadth of the nation.

- Ms. Monika K. Patel, Member of the editorial board, Alumni Connect, 7th issue

Wish you all a very Happy Diwali and Prosperous New Year. Hope you all are in good health. Talking about this month, It was indeed a splendid one. As our 1st episode of coffee and conversation with alumni is released. Also many more activities are lined up such as developing online knowledge bank of books, and so on.

We would like to hear from our esteem alumni for any suggestions/opinion which can be implemented.

Kindly do write us at setu@srict.in

Be an engaged alumnus..

- Shreya, Editor, Alumni Connect
