CELEBRATING..

11th Foundation
Day

“

It gives us immense pleasure in presenting 16th bulletin of our Alumni Association. July is the special month for our institute as well as Alumni Association. We have celebrated successful completion of 11 years and the foundation day of alumni association on 16th July. Our institute has created new benchmark in education sector.

As you all aware that eleven years before started our institute is now Private University, number of things are happening at campus like center of excellence, Safety courses, AIMA Courses, research activities, MoUs with national and international organizations, felicitation, and evergreen 100% placement. Our Alumni are present in all sectors of business around the globe, on behalf of our Alumni association I would like to invite members to take expert lectures through which, you can arrange industry visits and we can help existing student for the placements.

We are happy to receive achievements, memories, and views from Alumni members. It gives us more energy to work. Hopping for the same enthusiasm and support, we are in planning of some activities through our association, it will be shared to you soon.

- Harsh Shah
President, SRICT Alumni
Association

SPOT LIGHT – ALUMNI ACHIEVEMENT

Krishna Mani ·
Senior Environmental Engineer at Ecologic ...

I'm happy to share that I'm starting a new position as Senior Environmental Engineer at **Ecologic Engineering PVT LTD!**

#environmental #engineering #wastemanagement #wastewatertreatment #airpollutioncontrol

Krishna Mani, Alumni
EST, Adm. Batch 2014

Dishant Khatri
Specialist- ESG at Walking Tree

I'm excited to start my new job with **Walking Tree** as Specialist- ESG **#newjob**

Dishant Khatri, Alumni
EST, Adm. Batch 2013

Congratulations to our alumni for starting new job

Our proud alumni talks on social site..

Shefali Chokshi
Learner | MBA-Energy and Environment

I choose to be the Change, instead of complaining about it.

Pics are from different locations- abu, ambujanagar, ankleshwar, ahmedabad.

#myplanet #sustainableliving #myrights #mycontribution #lilsteps #happyplanet #lowwaste

We feel happy seeing our alumni showing concern and addressing the much needed social issues.

Connect ✨ Engage ✨ Thrive ✨ Celebrate

I feel bad when I see my Planet with waste dumped literally anywhere (swipe left for pics) So I have decided not to sit and complaint about it instead do every possible thing that makes my planet a happy place to live.

the Journey

I am Priyanka Natraj Mudliyar, I completed my BE from SRICT, Chemical Technology branch in 2019.

I am glad to share my journey with UPL university, my 4 years at UPL were amazing. I have learned a lot many things here. Faculties of UPL are very friendly in nature, and their way of teaching is also very easy to understand. The felicitation program, one-to-one meetings, and the written target of scoring good SPI motivated me to study well. Other than studies I also learned and enjoyed the TECH FEST, Sports day, and Reva fest here. It also provides opportunities for jobs by providing campus placement, where I also got placed at UPL university (R&D Department as a JRA). These four years were just unforgettable for me. This is a place where anybody can groom themselves in all ways. Thanks to UPL & to all the faculties

the Journey

NIRAV BHATT
Electrical Engineering Alumni

I truly believe I was a rough uncut stone when I entered the place, SRICT. The college crafted me for a great long four years and made me a diamond in a believable sense. The time I spent, the life I lived there was like a dream which I never wanted to end; I felt astounded.

Being a SRICTian, I can proudly say the wisdom I was exposed to on campus is like lifelong enlightenment that will be a sail as well as a boat paddle to take me to a destination in the ocean of opportunities. To grow, it's not just you, who work hard and achieve success; It's the surroundings and the support that anyone needs and I can say by heart that SRICT will never fail at that.

Even during the hard covid spread times, I got a placement at Beil Infrastructure Ltd that really brought light to my life. Currently, I am working at Polycab India ltd and I still believe SRICT is the driving force behind it. The guidance and support I get even after completing my studies are phenomenal.

I really miss those days and those memories won't take a backseat ever. My hearty thanks to all the faculties, management, and friends to make those four years the best.

Alumni Talk

One of the most interesting stages in life that gives you an opportunity to explore is the 'college phase.' Life at college is the time when the teenage years end and we all dive deep into the ocean of new beginnings and possibilities. This golden period better equips you for all the challenges you'll face in life and creates a strong foundation of knowledge. a

Bhoomi Patel
EST- Alumni from Adm.
Batch 2013

My experience at SRICT has taught me one of the essential behaviours in life - Self discipline , Discipline refers to orderliness in life, which is necessary for success in one's life. The four years of my college have showered me with lots of opportunities, learning , joy and happiness. SRICT has helped me apply knowledge and skills, develop new abilities and interests, and strengthen social and organizational skills. I am very grateful and honoured to be alumni of such a prodigious institute .

BHOOMI PATEL,

Shukla Sampan, ME-
Alumni, Adm. Batch 2013

Everyone, here I'll like share my journey in SRICT. I'm the very first batch 2011's student. at that time there's only one building was there and rest of all the things are in under construction.

I saw the complete progress of SRICT. My Journey was not as easy but I'm really thankful to Mr. Samir Jariwala Sir, Hiren Mahida Sir, Girish Bramhakshatriya Sir, Chetan Patel Sir and Shivang Ahir Sir to help me out during each and every moment, either it's academic or nonacademic. I'm really thankful to Dr. Rajesh Iyer sir also. SRICT is something unique and different as compared to rest of the Engineering collages. Currently I'm Working in USA Based Biotechnology MNC "Avantor Performance Materials India Ltd" at Panoli. it's been Honor to be called my self "SRICTian"

Article

Hi Everyone,
I have recently started working as a trainee engineer in one of the chemical industries at Dahej. The journey started with basic induction including training on process safety. Usually, the charge to a trainee engineer is given post one year, but being from SRICT, we feel very familiar to these chemical processes.

I am fortunate to work on an autoclave operating at around 250°C and 57 kg.cm⁻³ pressure. Here, we get to see things from a different perspective. While, industrial visits during college life, we were not so serious about in-depth technology. But, now I feel the importance of industrial visits and expert lectures.

I would suggest current students to be in touch with peers and take help from seniors whenever needed. We do miss our college life and friends. But, while moving ahead in our professional life, we will always cherish those moments spent in college.

Through the alumni association, we would try to be in contact with friends and faculty members. I would also visit the college to talk to current students once I gain enough knowledge, that is worth sharing.

CHAUHAN AKSHAR, CE- Alumni,
Adm. Batch 2018

WHAT'S HAPPENING

ON CAMPUS

For such happening campus; SRICT, its difficult to cover all the activities. We showcase the glimpse of few recent activities.

Department of Environmental Science & Technology organized One Day Seminar on "Environment, Social, Governance (ESG) Framework & ESG Metrics" on 28 July 2022 sponsored by Gujcost and Department of Science & Technology.

Department of Environmental Science & Technology

SRICT has always believe in commending students for their hard work and sincere efforts in their academics to inspire them to scale higher merits as they gradually excel in their engineering journey. Academic award ceremony of Batch 2018-2022 "ABHYUDAY-2022" was celebrated today to honour the shining stars of semester VIII for their splendid performance at GTU summer 2022 examination.

We welcome and invite Students of batch 2018-22 to join alumni association

Dr. Nilesh Badgujar, Associate Professor & Head of Department of Chemical Technology, recently on 28/06/2022 granted his patent by Government of India. The title of the invention is on "Process for treatment of Paint Sludge"

Upcoming Events:

- Lecture series – from Alumni (Branch specific)
- Half day workshop - organized by Alumni
- Alumni Interviews, Debate (Production vs Process)
- Tree plantation drive

From the desk of editors

It is always great to connect to alumni for their stories. We are planning for few activities including tree plantation, lecture series for present students.

As we celebrated 11th foundation day on 16th July this month, lets us be an engaged alumni and actively engage ourselves for alumni association events/activities. Alumni members are requested to Send article before 25th of every month on setu@sriect.in.
