ALUMNI LETTERS

Hi,
We both pursued Chemical Engineering from SRICT in 2019 and started working for the companies we were placed in during on-campus placement. Later, we joined IBS Hyderabad for MBA and now, we will be serving a business process management company - Genpact.

Harsh Prajapati: I was placed with Alembic, Vadodara, after my completion of B.E. During my small journey at Alembic, I learned a lot. I personally felt gaining experience is very important before going to post-graduation education, particularly while pursuing MBA in operations.

Nikunj Raj: I was placed with Nocil, Dahej after completing my B.E. in Chemical Engineering. Later, I shifted to Heubach colours and gained experience before starting my MBA from IBS Hyderabad. During our master, we experienced cultural diversity and learned a lot from extra-curricular activities. We would insist that present students of our college actively participate in various clubs and activities to learn managerial skills and also to enjoy these activities.

Countinued.....

CONTINUED.....

Harsh and Nikunj: We both believed that switching to industrial life from academic was relatively easier due to the activities we undergo during our stay at SRICT Also, the skills we learned during our journey from SRICT, including the computational and soft skills are helping us in our career at present. We visited our college, SRICT, on 09th November 2022 to meet and greet our fraternity. It was a nostalgic moment, meeting faculty members, visiting classrooms, and visiting the canteen. It is always a matter of pride to be an alumnus of the Shroff S. R. Rotary Institute of Chemical Technology. Looking forward to staying in touch.

Harsh Prajapati and Nikunj Raj
Chemical Engineer (Admission batch 2015)

ALUMNI LETTERS

Hello to all "THE FUTURE SRICTIAN"

Here is Sushil .R. Patel from 2018 batch. I had obtained bachelor's degree in Electrical Engineering from Shroff S.R. Rotary Institute of Chemical Technology. Currently going to pursue M.B.A with Human Resource for higher studies.

"Shreshth Mein Shreshth Sarva Shreshth Humara SRICT Best"

I am giving this Quote as "SRICT" is "Shreshth" in each and every Criteria like Infrastructure development, lab development, Eco friendly environment, transportation facility, Hostel facility, with upgraded Standard Education System, Best water facility, huge and hygienic canteen etc. by this only now it becomes "Sarvashreshth" And the Best thing is the SRICT "Education Quality" which is Splendid and very effectively transforms our heart and mind. It is our responsibility to keep reaching new height of Education which I was learnt from my Respected Teachers. A "Bunch of thanks" to SRICT as well as to each and every member of SRICT for supporting, giving better guidance for my future. I am very lucky that I was taken an admission in SRICT which was a great and precious opportunity for me. I am very grateful that I have learnt many things from SRICT which was deeply enhanced my skill and knowledge.

Not only this but also many things vicissitude in my life and the credit behind this is goes to "SRICT Family". Even SRICT was also supported to students by "contributing" through various program so from the "Core of my heart thanks a Million" to SRICT.

So, Here I am Proud of myself as a "SRICTIAN".

Best Regards

Sushil .R. Patel

Alumni - Electrical Department

ALUMNI LETTERS

Achievements-applauds, opportunities-thoughts, this is what I gained from SRICT. It gave me a platform that I will cherish always. Someday I won and some days I learned. Right from my first day till the last day I won't be able to forget the fun we did and learning we gained in these 4 years, opening doors of the past always gives me goosebumps and happiness. Our college let us fall by our own but made us climb on the ladder to success.
Proud to be SRICTIAN.

Palak Saxena
Alumni - EST Department

I am presently serving PGP Glass Ltd Kosamba as an industrial apprenticeship in the Technical Training Cell. During my undergraduate engineering course in SRICT I underwent lots of EL, IVs, training, and internship. I completed my undergraduate project dissertation in CSIR-CGCRI Naroda where I was exposed to advanced instruments, experiments that improved my understanding quite a lot. SRICT is taking innovative measures towards all-round development of students with a whole-hearted and dedicated approach.

Vrusabh Parmar
Alumni - Chemical Technology Department

ALUMNI LETTERS

SRICT-ISR was more than a college to me. It's a privilege to be connected to this institution. A place where I gained knowledge, best needed for the survival in outer world and confidence. Right from day 1 energy and enthusiasm is what I experienced, be it faculty or students. I am what I am this day because of the curriculum, the teaching methodology adopted by the professors. An amazing institution which teaches you self-discipline, confidence and problem solving an essential traits to start your journey.

Amal C Pillai
Alumni - MSc. Chemistry

One of our esteemed alumni (Krunal Chauhan, chemical engineering, admission batch 2014) pursuing his Ph.D. from IIT Rorkee helped our present students with accommodation, local sightseeing and guided them with regards to their careers.

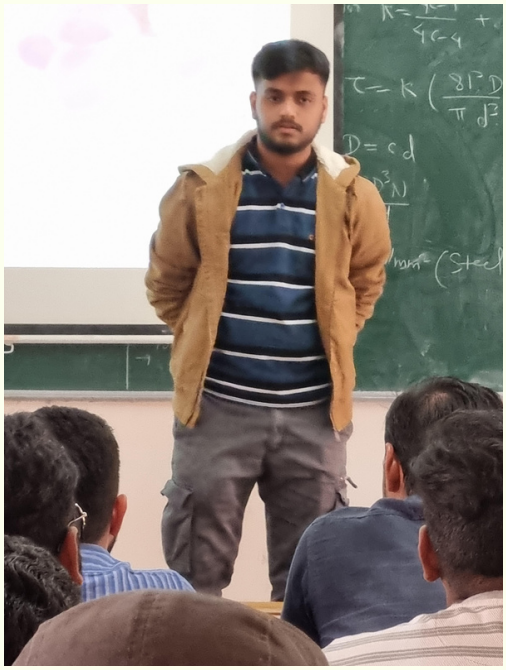

ALUMNI INTERACTIONS

Mr. Vishal Prajapati from batch 2016-2020 has interacted with mechanical engineering students during his visit at SRICT campus on 9th November '2022. He is currently pursuing his master's degree in "Industrial Engineering" from Hochschule BBW institute, Germany. He has discussed various points like how students can apply for higher studies in Germany. What is the scope of mechanical engineering in future at world level. Students of MED have also shown interest in his talk and asked few questions like fees structure, scholarships for international students, difference between govt. institutes and private institutes and value-based education.

It was really nice interactive session and really beneficial to students for their future planning.

ALUMNI INTERACTIONS

Video Testimonial from Ms. Shreya Kundu, Alumni from EST, Admission batch 2013

Thanks to Ms Shreya Kundu for video testimonial. The testimonial is posted on University's web page. One can view it using the following link:

WHAT'S HAPPENING ON CAMPUS

An Industrial visit was organized for Diploma Computer Engineering, Semester-I students at Godrej Industries. Students got to know SAP and Software tools, firewall,ERP system of their company

A MOU was signed between UPL University and Uniphos Envirotronic Pvt. Ltd. The MOU will provide our students with a variety of opportunities for exposure through expert talks, virtual visits, research facilities.

A one-to-one meeting of students with the honorable president of our University, Mr. Ashok Panjwani was organized with the purpose of motivating students to improve their overall academic performance.

A Parents Teacher Meeting was organized for the Department of Electrical Engineering Semester-V & Semester-VII Students. The meeting was conducted to discuss student's performance with parents.

From The Desk of Editors

We thank our alumni members for providing interesting contents for the Newsletter. We extend thanks to co-editors and reviewers for helping us draft the newsletter. We request readers to kindly write back to us with more ideas, suggestions and feedback. We invite more articles from our esteemed alumni for the following sections/columns for the next issue of monthly newsletter: achievements, stories, new ventures, experience sharing, door darshan, etc. Send your article before 20th of every month on setu@srict.in

STAY HEALTHY & STAY SAFE.

HAPPY READING AND DO WRITE US BACK.
