ALUMNI LETTER

Hello!

I am Manish Jaiswar Vijaybhai, I have completed by B.E. (Electrical Engineering) in 2021 from the best institute i.e., Shroff S R Rotary Institute of Chemical Technology, which is well known for its studies, placement, laboratories and all other professional as well as extra-curricular activities.

As an SRICTian, I got exposure in inter-college technical programs, industries, seminars, paper presentations, etc. I also got chance to interact with my juniors while performing PLI's, expert lectures & clearing their doubts. As soon as I finished my studies, I got selected in BEIL Infrastructure limited company as an Electrical Project Officer in the campus placement. And then my journey starts. On my first site Wellington, Tamil Nadu. I got to learn the estimation, planning and design of 2 MLD STP Plant in electrical department. After 6 months I was sent to Sidhannur, Karnataka and here I have completed 12 MLD STP Plant based on FAL system DG and different types of Pumps commissioning work. after 6 months I was sent to Surat, Gujarat site 37.5 MLD STP plant based on SBR and MBBR system for commissioning of HT/LT Panel, PCCs Panel, MCCs Panel, APFC panel. And currently I am working in same organisation.

If you are reading this Article as a SRICTIAN certainly or uncertainly then I would say you are very lucky that you are part of this system. It's an honour to be an alumni member of SRICT, as everyone easily recognizes us and also praises our institute for its vibrant culture.

Manish Kumar Jaiswar
Alumni EE - 2017

ALUMNI LETTER

'Time flies' like an arrow. The days I spent at SRICT were exactly like this proverb.

Discipline is like in the air of its environment. My College days are unforgettable and in fact those days are the most happiest & fruitful days of my life. I proudly feel that I cherished every moment of my college. SRICT is a place of knowledge and bliss. It has provided me a wonderful environment and opportunity to learn and grow myself in every field.

Being a "SRICTian" makes me feel proud. My experience in SRICT was just amazing. I got infinite love & lessons from my teachers, my teachers there made me work hard for making me success in life. Being a part of SRICT, I felt blessed. The college has moulded my personality and clarified my vision for my own future. There are so many opportunities to develop one's personality in any field like, cultural, literature and many more.

My journey in this College was flooded with assignments, quizzes, presentation, papers and exams. It was the most precious and golden phase of my life. The entire faculty and other members of this institution are very cooperative. I got a lot of love and support from my teachers & colleague and it made my 4 years memorable for me.

In SRICT I have not only got the boost for studies but also for other curricular activities as well. We have a very pleasant and amiable environment at our college, which attracts the students to attend the college daily.. I really liked the teacher's approach to the students they always want to help us. I have got infinite love & support from my teachers at every step.

ALUMNI LETTER

They have encouraged me to polish my hidden talents in number of ways. However with the guidance from enthusiastic teachers all the efforts made by me were rewarded at last.

My classmates and I have put a great deal of painstaking efforts into studies and have devoted all our energy into unforgettable events and activities. Unlike its relaxing surroundings, academic life at this College has been filled with learning challenges. Moreover apart from studies, students also enjoy the Co-curricular activities. This college believes in imparting Moral, Ethical knowledge among students. SRICT Made me do hard work for the way to success. SRICT is much beyond just an “Institution”...It actually denotes a “Culture”...Culture of excellence, empowerment, and enrichment. Just want to thank to the wonderful faculty of SRICT....I am proud to be a SRICTian....!

Kinjal Patel
Alumni EST - 2013

ALUMNI JOURNEY

Hi everyone,
‼ Greetings of the Day‼
I am Harsh Maheshwari, student of 2017 batch alumni of SRICT. I did bachelor in Mechanical Engineering at SRICT from 2017-2021. At present, I am pursuing postgraduate degree in Applied Energy Management from Conestoga College, Ontario, Canada.

Along with my study, I am working as a customer service representative in Pioneer Energy Gas Station as a part time at Kitchener, Ontario, Canada. During my bachelor, I developed interpersonal skills like, written communication, presentation, group work, engineering skills etc. It led me to inspire to do post-graduation & I came here in Canada to do further study. I got admission at Conestoga College to pursue post graduate diploma course in Energy Management. Along with this, as a part time job, I am working with Pioneer Energy Gas Station as a customer representative. When I moved here I grew up with essential skills such as Problem Solving · Phone Etiquette · Organization Skills · Customer Support · Customer Experience · Communication · Interpersonal Skills which I feel that such skills will not only lead my professional career but also will inculcate my personal life too.
My academic background made me capable enough to run pursue my career successfully in this filed and also to explore it to a new height. I also want to see myself at the top most position in a very reputed organization in a nearby future.

Thanks to all my Faculties of SRICT for your valuable support to provide me a platform where I could nurture my skills and reached to this position.

Harsh Maheshwari
Alumni ME - 2017

ALUMNI JOURNEY

Education is often regarded as the key that unlocks the door to endless possibilities and opportunities in the world. Having had the privilege to witness the profound truth in these words, I can attest to the transformative power of education in my personal journey from being a Graduate Trainee Engineer to the role of a Manager in New Projects and Developments.

Throughout this remarkable transition, my focus has consistently revolved around the development of polymer structures and their corresponding processing methodologies.

Over the course of five years, I have come to realize the true essence of education and its practical utilization in the field. Every theory, concept, and principle I have learned has had a significant impact on my hands-on experience, fortifying me both intellectually and technically. It is the integration of theoretical knowledge with practical application that has truly shaped my growth, making me more adept and proficient in my field.

Education is not merely confined to the confines of a classroom or lecture halls. It extends far beyond that, encompassing a continuous learning process that takes place in the real world. Each practical experience I have encountered has served as a catalyst for personal growth, consolidating my theoretical knowledge and expanding my horizons. The synergy between education and hands-on application has not only made me more resilient but has also honed my technical acumen, enabling me to overcome obstacles with confidence and ingenuity.

Varun Joshi
Alumni CT - 2014

ALUMNI SPOTLIGHT

We congratulate Jay Rana, Alumni from 2011 Chemical Engineering branch, for being promoted to Assistant Manager at YASHASVI RASAYAN PRIVATE LIMITED

We congratulate Kunal Patil, Alumni from Mechanical Engineering branch, batch 2015 for joining the team at Accenture as a Business Architecture Senior Analyst

ALUMNI FEEDBACK

It is a very good experience doing Post Graduation Diploma in Process Safety (PGDPS) at UPL University while working in the operations department as a chemical engineer. This course helps me to efficiently identify hazards, evaluate and mitigate risks that are faced while operating a process.

While improving technically, it also enlightened my subconscious towards process safety and will help me make balanced decisions while working on the shop floor.

The course is designed so well that applying the fundamentals for real life examples are efficient and easy. Also, the faculties/trainers are of great experience and learning from their experience is a lifetime opportunity. As we are going towards sustainable technology, I am sure that this course will play a very vital role in achieving excellence in technology with sustainability. As a chemical engineer this course is a must no matter in what department you work, this course will help you in day-to-day decisions making.

Moreover, going back to college made me feel nostalgic. I was attending Post Graduation Diploma on Process Safety in the same Seminar Hall where I attended many programs during B.E. before almost a decade. I urge my batch mate and other professional from Chemical Engineering to visit University and try attending such programs.

Suzauddin Mastiya
Shift leader, CCP Plant UPL-5 Jhagadia
Alumni CE Batch 2011

ALUMNI TESTIMONIALS

I feel enchanted and exhilarated to have been selected for the best alumnus student under the category of STAR OF SRICT Silver award across all branches (from Admission batch 2011).UPL University has created a strong connection in the form of recognizing the achievements and credentials of the pass-out students and keeping on motivating them. I am indebted to SRICT for the quality and excellence in education, overall upbringing, culture that has been imbibed and inculcated within me during my years of graduation in engineering. I wish from the bottom of my heart for the continuous growth and development of this institute which has been contributing to society at large scale and broad spectrum.

Dildeep Pallipad
Asst. Manager, CEAT Tyre, Vadodara
Chemical Technology – Polymer & Rubber (2011-15)
Recipient of Star of SRICT - 2011 Admission Batch

ALUMNI TESTIMONIALS

I feel excited to have been selected for the best alumnus student under the category of STAR OF SRICT Silver award across all branches (from Admission batch 2013). UPL University of Sustainable Technology has created an another connection in the form of recognizing the achievements of the alumni students and keeping on motivating them. I am indebted to SRICT for the quality and excellence in education, overall raising, culture that has been imbibed and nurtured within me during my years of graduation in engineering. I would truly express my gratitude to everyone who gave me the opportunity to prove myself and created the opportunity for me to deserve this award.

Thanking You.
Binita Tailor
Marketing Officer, BEIL Infrastructure Limited, Ankleshwar
Electrical Engineering – (2012-16)
Recipient of Star of SRICT - 2012 Admission Batch

ALUMNI TESTIMONIALS

I am honoured to be bestowed with the prestigious 'Star of SRICT' award which is a recognition of my notable accomplishments in industry, research, education, and social contributions. This recognition represents not only my achievements as an Environment Engineer but also the foundation upon which those achievements were built.

I am delighted to take a moment to reflect on the outstanding work being done by UPL University of Sustainable Technology in providing exceptional education and fostering a culture of appreciation for its alumni. What sets our University apart is not only its commitment to education but also its deep appreciation for the achievements of its alumni. The success stories of UPL University alumni serve as a testament to the university's ability to nurture talent and provide a solid foundation for professional growth. The dedication and passion exhibited by the management, faculty, staff, and students are truly commendable, and it is through their collective efforts that UPL University continues to make a lasting impact on the lives of its students and alumni.

Sherya Kundu
Enviromental Science & Tech (2013-17)
Recipient of Star of SRICT - 2013 Admission Batch

ALUMNI SPEAKS

I, Kinnari was a student of SRICT-Institute of Science and Research 2018-2020. UPL University of Stainable Technology was the most amazing 2 years of my life yet .This college lives up to everything it offers. The college has a well advanced infrastructure with research lab, a well-stocked library and sports facilities it also has a well-managed, clean, sanitary, spacious canteen. Teachers are nice, supportive and friendly. I would like to thank all the faculties of SRICT-ISR Department for their sincere efforts of bringing out the best of us and for all the motivation and encouragement they always have given us!

Kinnari
Alumni - M.Sc. Chemistry
Chemist, R&D BEIL - Anskleshwar

WHAT'S HAPPENING ON CAMPUS

Academic Achievers of B.E. Semester-VI and VIII felicitated for their excellent performance of the previous semester. Over 130 Students of B.E. Semester-VI and VIII were felicitated with certificates and cash prizes for their excellent result of the previous semester.

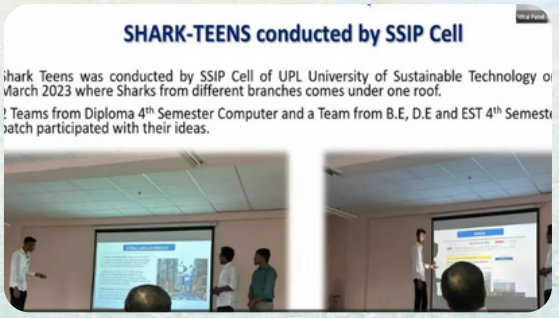

Department of Environmental Science & Technology of UPL University of Sustainable Technology organized a one day seminar on "Sustainability Disclosure as per GRI Standards" at university campus on 11 May. The sessions were delivered by Dr. Mritunjay Chaubey - Global Vice President, UPL-Ltd

A Pre-employment Career Guidance entitled "Right Choice to Build A Bright Career" was organised for all Engineering Semester-6 and MSc students. The session was delivered by Mr. Devendra Bhimada, HR Head, Neelkanth Group of Industries

Department of Computer Engineering, of UPL University organized the Virtual Parents-Teacher Meeting for 1st & 2nd year B.E. and Diploma Engineering students on 13 May . There was an open discussion between parents and faculties regarding students' academic activities and the difficulties faced by students.
