Alumni JOURNEY

NAME - TRUPTI JOSHI
DEPARTMENT - ENVIRONMENTAL SCIENCE & TECHNOLOGY (2012-2016)
COMPANY NAM E- DCM SHRIRAM LIMITED.

Hi Everyone,

I'm Trupti Joshi from Environmental Science & Technology, Batch 2012-2016. After completion of my graduation, I was placed at UPL Limited through campus placement. Currently, I'm working as an Assistant Manager- EHS at M/s. DCM Shriram Limited, Jhagadia, Bharuch. As an alumna of Shroff S R Rotatory Institution of Chemical Technology (SRICT), I stand as a testament to the transformative power of education and the boundless opportunities it can unlock. My journey through the corridors of this esteemed institution was not merely a passage of time, but a profound immersion into the world of Environment Engineering, where curiosity thrived, and dreams took flight. SRICT isn't just an institution; it's a crucible of growth, where academic excellence meets character development. During my time at SRICT, I was nurtured by dedicated faculty members who not only imparted knowledge but also instilled in me a passion for innovation and a commitment to lifelong learning. Beyond the classrooms, SRICT provided a vibrant ecosystem where I honed my leadership skills, collaborated with peers on projects, and participated in extracurricular activities that enriched my holistic development. The supportive community at SRICT, comprising fellow students and alumni, fostered a spirit of camaraderie and collaboration that continues to inspire me in my professional journey. As an alumnus of Shroff S R Rotatory Institution of Chemical Technology, my advice to current students would be to embrace every opportunity for learning and growth, both inside and outside the classroom. Take advantage of the rich resources and supportive community that SRICT offers, and never hesitate to explore new avenues of knowledge and experience. Remember that your time here is not just about earning a degree but about honing your skills, discovering your passions, and preparing yourself to make a meaningful impact in the world. So, stay curious, stay engaged, and above all, believe in your potential to achieve greatness. In closing, I want to extend my heartfelt thanks to SRICT for shaping me into the person I am today and for the countless opportunities you have provided me. I am proud to be an alumnus of such a distinguished institution, and I look forward to continuing to uphold the values and ideals that define SRICT.

Alumni JOURNEY

NAME - RAVIRAJSINH SOLANKI
DEPARTMENT - ELECTRICAL ENGINEERING (2019-2023)
COMPANY NAME - IMEG, AHMEDABAD

Hello Everyone
My name is Ravirajsinh solanki. I completed my B.E electrical engineering from SRICT 2019 and currently working at IMEG, Ahmedabad.
I'm here to share my views that how SRICT help me to shape my career. SRICT prepares me to face challanges in my career. Main moto of this institute is to make dreams into reality.
In SRICT one-to-one meeting is organized with vice chairman Mr. Ashok panjwani sir, in which sir personally talks with the students and encourage them about their destiny. SRICT also arranged industrial visit, Expert lectur, co-curricular activities. So students can get more practical knowledge of their respective fields . To boost up your confidence. SRICT provide peer learning initiative. SRICT also offers cash rewards to motivay students hard work.
Then SRICT also organised National level techfest, Revafest (our annual function), sport day etc. Thus it's such a great platform to build up great engineering future.
Then coming to the heart of SRICT family that is Faculties. As per my own experience that i have seen during my 4 year journey. Faculties are very much flexible and are always supportive to us. They were extremely friendly with us and they always insist in making PPTs, sending soft material & assignments.
Last but not the least, I would like go conclude that SRICT (now UPL University of sustainable technology) is a place which is a combination of ideas, entertainment, motivation & many more things.not only limited to education.

Thank You All

NAME - MEETKUMAR BHATT
DEPARTMENT- MECHANICAL ENGINEERING
(RESEARCH ASSOCIATE)

Hi everyone,
!Greetings of the Day!
My name is Meetkumar Bhatt.
Currently I am working on Research topic Compressed solid fuel for burning (Briquettes)" solid flow characterization at DBFZ (German biomass research center).

As (Master student/Research associate).
To get here UPL university play a very gentle role .There are some habit that was created during study days in university that help to keep going always. There are important sets skills of my field and engineering was shared by my faculty and it helps me to move forward in professional life.
One thing I will always keep in mind that I am a small part of UPL University and this university is part of my journey.

Thank You All

NAME - PARTH MODI
DEPARTMENT - CHEMICAL ENGINEERING (2015-2019)
COMPANY NAME - DECCAN FINE CHEMICAL.

As a proud alumni of SRICT, I Parth Modi student of Chemical Engineering Department of Batch 2015 to 2019, I am excited to share my college experience and reflect on the invaluable lessons and memories that have shaped me into the person I am today.
I am recently working in Deccan fine chemical since 2023. I got placed from SRICT in Alembic Pharmaceuticals ltd were I worked for 3 years as Executive officer and then from august 2022 to 2023 in sterling Auxiliary for one year. As far as my skills are concerned, I have grown up with both technical and non- technical skills. It was very difficult to cope up the English language as I studied in Gujarati Medium but with the help from faculties and especially different activities during the study helped me a lot to have a good conversations in English. Apart from that there was a big support from all the subject teachers and my dear friends to get better knowledge of different subjects. I am really thankful to all faculties, staffs & off-course to my dear classmates for guiding me in all areas for my overall development and also to support me to start my career with this prestigious organization. To summarize, I would like to express my heartfelt gratitude to Shroff S.R. Rotary Institute of Chemical Technology and my department Chemical Engineering for providing me with an exceptional college experience and skilful knowledge. I would love to be there for any need as per my level arises.

Thank You All

NAME - MIHIR SHAH
DEPARTMENT- CHEMICAL TECHNOLOGY (2015-2019)
COMPANY NAME- AARTI DRUG Ltd. , SAYKHA.

Hello Everyone,
I've found that this journey has been incredibly amazing. Because no matter what happened, I had the peace of mind knowing that all of the chatter, the name-calling, the doubting...all of it was just noise. It did not define me, it didn't change who I am , and most importantly, it couldn't hold me back.
At SRICT I met some Colleagues who always Supported me in study and any other activity.

I am Thankful to all the faculty members of the Chemical Technology department, who supported me to enhance my Knowledge.

Thank You All
