WORLD ENVIRONMENT DAY

Alumni Journey

NAME- RAJ PATEL
DEPARTMENT- DIPLOMA CHEMICAL ENGINEERING
(2021-2024)

Hello Readers,

I stepped into UPL University with a mix of excitement and nerves. The campus was vibrant, and the atmosphere was electric. I was drawn to the university's strong reputation for innovation, research, and industry connections. Throughout my journey, I was encouraged to explore my interests, challenge assumptions, and ask questions. The faculty were approachable, and the coursework was engaging.

I developed a curiosity-driven mindset, which helped me navigate complex problems and discover new passions. UPL University offered a diverse and inclusive community. I connected with peers from various backgrounds, industries, and disciplines. We collaborated on projects, shared experiences, and learned from each other. The university's strong industry connections also provided opportunities for mentorship, internships, and networking.

My journey at UPL University was transformative. I gained valuable skills, knowledge, and experiences that shaped me into a confident, adaptable, and forward-thinking individual. The university's emphasis on innovation, entrepreneurship, and social responsibility inspired me to make a positive impact in my chosen field.

Thank You all.

Alumni Journey

NAME- YASH JADAV
DEPARTMENT- ENVIRONMENTAL SCIENCE TECHNOLOGY
(2022-2025)D2D

Hello readers,

My engineering journey at UPL University from 2022 to 2025 as D2D student has been a transformative experience. The faculty members have been instrumental in shaping my technical knowledge and skills. Their expertise, guidance, and support have helped me navigate complex concepts and projects. The faculty's industry experience and real-world examples have made learning engaging and relevant.

The university's management has been supportive and proactive, ensuring a smooth academic experience. The infrastructure, labs, and resources have been well-maintained, providing an ideal environment for learning. The management's emphasis on innovation, research, and extracurricular activities has encouraged me to explore my interests and develop my skills.

Throughout my journey, I have been impressed by the faculty's dedication, passion, and commitment to student success. The management's vision and leadership have created a vibrant academic community, fostering growth, innovation, and excellence. I am grateful for the opportunities and experiences I've had at UPL University, and I am confident that the knowledge and skills I've acquired will serve me well in my future endeavors.

Overall, my time at UPL University has been enriching, and I appreciate the support and guidance I've received from the faculty and management.

Thank you all.

Alumni Journey

NAME- VAISHNAVI PATIL
DEPARTMENT- COMPUTER ENGINEERING
(2021-2025)

Hello readers,

My name is Vaishnavi Patil, a proud graduate of UPL University of Sustainable Technology, where I completed my B.E. in Computer Engineering in 2025. My time at UPL was enriching and transformative, offering numerous opportunities for academic and personal development.

The Computer Engineering department fostered a dynamic learning environment that encouraged innovation, collaboration, and problem-solving. The dedicated faculty members consistently supported and guided us throughout our academic journey.

With an industry-relevant curriculum covering programming, cybersecurity, software development, and IT solutions, we were well-prepared for real-world challenges. Engaging sessions like expert talks, industry visits, and hands-on workshops added great value to our learning.

A key highlight was receiving a scholarship throughout my studies, which greatly motivated me. I'm especially thankful to the 'WeNayak' – Training & Placement Cell for their constant support, which helped me begin my professional journey at UPL Ltd.

Thank you all.

Alumni Journey

NAME- MD LAKDAWALA
DEPARTMENT- ELECTRICAL ENGINEERING
(2013-20217)

Hello readers,

I reflect upon my journey through the corridors of UPL University of Sustainable Technology during my Master's degree, I am filled with a deep sense of gratitude for the transformative experience that significantly shaped my professional and academic growth. The institute has not just been a place of learning—it has been a catalyst in refining my expertise and expanding my horizons in the field of engineering.

The journey began with my graduation here at SRICT. The classrooms and laboratories were not just spaces for routine learning but hubs of innovation and critical thinking. The lab sessions went beyond experiments, helping me apply theoretical concepts to practical, real-world challenges. The emphasis on experiential learning during my Master's program played a pivotal role in deepening my subject matter expertise.

Equipped with this robust academic foundation, I transitioned confidently into the professional world. My Master's degree from S R Shroff Rotary Institute of Chemical Technology, enhanced by specialized certifications, paved the way for career growth at ETL. The skills, discipline, and insights gained during my postgraduate journey have empowered me to face challenges in the corporate world with competence and confidence.

Thank you all.

Alumni Journey

NAME- ZUHER
DEPARTMENT- SRICT-ISR (2021-2024)

Hello Readers,

I am Zuher, an undergraduate in Chemistry from UPL University of Sustainable Technology, Class of 2021.
My time at UPL University was a transformative experience, filled with growth, learning, and lasting memories. The faculty-student relationship was more than academic. it was built on mutual respect and mentorship. The professors were not only knowledgeable but also genuinely supportive, pushing me to reach my full potential and helping me develop the confidence that strong leadership requires.

The university environment encouraged independence and prepared me to tackle real-world challenges. I especially valued the exposure to industry through well-organized visits, guest lectures, and conferences, which provided practical insight beyond the classroom.

UPL University also offered a rich campus experience, with excellent infrastructure including modern labs, a well-equipped library, sports facilities, and numerous opportunities for extracurricular and co-curricular involvement. This well-rounded ecosystem played a vital role in shaping both my academic journey and personal development.

Thank You all.

What's happening at campus

UPL University of Sustainable Technology, in collaboration with the Gujarat Pollution Control Board (GPCB), organized a special event on 2nd June 2025 as a pre-celebration of World Environment Day, which is observed globally on 5th June. The event aimed to promote environmental awareness and encourage sustainable practices among students and staff.

A range of meaningful activities were carried out as part of the celebration. One of the major highlights was a tree plantation drive, in which students, faculty members, and GPCB representatives enthusiastically participated. Several saplings were planted at the university campus to enhance green cover and foster a culture of ecological responsibility.

What's happening at campus

An awareness program was also conducted for Diploma, B.E., and M.E. students in which students presented their views and poems on environment and speech by faculties and GPCB Regional Officer Shri V D Rakholiya sir encouraged young environmentalist to put up small-small efforts to drive a force towards environment and sustainability. The discussions focused on current environmental challenges, the importance of individual responsibility in combating climate change, and practical steps toward sustainable living. Dr. Vineet Kumar Rathore Assistant Professor from SVNIT, Surat and Dr. Jigar Gurjar Associate professor from SVMIT Bharuch have also graced their presence for the program.

The event successfully engaged students and staff, inspiring them to contribute actively to environmental conservation. The joint initiative reinforced the university's ongoing commitment to sustainability and served as a timely reminder of the role each individual plays in protecting our planet

Proud momement for nation

UPL University proudly congratulates **Shubhanshu Shukla** for becoming the first Indian in space after 41 years, carrying forward the legacy of Rakesh Sharma.

His achievement marks a historic moment for India and inspires the next generation.

Admission open

UPL UNIVERSITY
OF
SUSTAINABLE TECHNOLOGY

POST GRADUATE DIPLOMA IN ENVIRONMENTAL COMPLIANCE & SUSTAINABILITY

(For working professionals)

New Batch Starting from June 2025

Highlights

- Capacity Building in ESG & Various Sustainability Reporting & Framework
- Specialized Knowledge in Corporate Sustainability
- Environmental Compliance at Various Levels
- Sustainable Ratings & Finance

1 YEAR COURSE WITH ONLINE CLASSES & FLEXIBLE TIMING
