ALUMNI JOURNEY

Ronit Shah

Department of Chemical Engineering
BATCH 2022-2025

I stepped into UPL University with a mix of excitement and ambition. The campus was vibrant, and the atmosphere was full of opportunities. From the very beginning, I was impressed by the university's strong reputation for innovation, practical learning, and industry exposure. Throughout my journey, I was constantly encouraged to explore my interests, think critically, and push my limits. The faculty members were supportive, and the academic environment motivated me to perform better every day. During my time at UPL University, I developed a disciplined and growth-oriented mindset. Being a Civil Engineering student, I learned to approach problems analytically and practically. The coursework helped me build a strong foundation in core subjects, while practical sessions and projects enhanced my technical understanding. I gained valuable knowledge in structural concepts, planning, and real-world engineering applications. The diverse campus environment allowed me to connect with students from different backgrounds and perspectives. Collaborating on projects improved my teamwork, leadership, and communication skills. The university's industry connections also provided exposure through workshops, internships, and networking opportunities, which strengthened my professional confidence. My journey at UPL University has been truly transformative. I have gained not only academic knowledge but also confidence, adaptability, and clarity about my career goals. The university's emphasis on innovation, responsibility, and continuous learning has inspired me to strive for excellence and make a positive impact in the field of Chemical Engineering. I am currently pursuing B.E. in Chemical Engineering from GEC, Bharuch.

ALUMNI JOURNEY

Vinay Patel

Department of Mechanical Engineering
BATCH 2017-2021

My journey at Shroff S.R. Rotary Institute of Chemical Technology (SRICT), Bharuch, began in 2017 when I enrolled in the Bachelor of Engineering (Mechanical Engineering) program. The four years I spent at SRICT were instrumental in shaping my technical knowledge, professional outlook, and personal growth. During my academic tenure, I maintained a strong academic record with a CGPA of 9.02 and actively participated in various extracurricular activities. The institute provided me with an environment that encouraged learning, teamwork, leadership, and problem-solving skills, which later became valuable assets in my professional career. After graduating in 2021, I started my career as a Trainee Engineer at Bharuch Enviro Infrastructure Limited (BEIL), Ankleshwar. This role offered me hands-on industrial exposure and enabled me to understand practical engineering operations, troubleshooting techniques, process optimization, and data-driven decision-making. The experience helped me build a strong foundation in industrial engineering and plant operations. Recognizing my dedication and performance, I was promoted to the position of Officer at BEIL in October 2022. In this role, I have been actively involved in reducing equipment breakdowns, minimizing process bottlenecks, enhancing operational efficiency, and contributing to continuous improvement initiatives. The knowledge and skills acquired during my time at SRICT have played a significant role in helping me meet professional challenges with confidence. Looking back, I feel proud to be an alumnus of SRICT. The institute not only provided me with quality technical education but also instilled values of discipline, perseverance, and lifelong learning. I remain grateful to my teachers, mentors, and the entire SRICT family for their guidance and support throughout my journey.

ALUMNI JOURNEY

Narendra Sharma

Department of Electrical Engineering
BATCH 2020-2024

I am Narendra Madanlal Sharma, an alumnus of UPL University of Sustainable Technology (Electrical Engineering, Batch of 2020), and I am delighted to share my journey of learning, growth, and professional development. My time at the university was truly transformative. I am deeply grateful to Dr. Praful Chudasama, Mr. Ankur Gheewala, and Mr. Krunal Shah for their constant guidance, mentorship, and encouragement, which played a significant role in shaping both my personal and professional life. Today, I am working as an Officer – Electrical Engineer at Enviro Technology Limited, an organization dedicated to creating a clean, green, and healthy environment through sustainable waste management solutions for industrial, municipal, biomedical, plastic, and e-waste sectors. My professional journey with ETL began as a Trainee Engineer during my final semester, and I am thankful to the university faculty for supporting me in successfully managing my project work and internship simultaneously. The efforts of the Training and Placement Centre were instrumental in helping me secure these opportunities. The university provided me with a strong technical foundation, practical exposure, and communication skills that continue to help me perform my professional responsibilities with confidence. I would also like to acknowledge the scholarship support provided by the university, which played a crucial role in helping me successfully complete my graduation. I am where I am today because of the opportunities, education, and support I received from UPL University of Sustainable Technology. I sincerely thank my mentors, faculty members, and the entire university community for their invaluable contributions to my growth and success. I am proud to be an alumnus of UPL University of Sustainable Technology and look forward to contributing positively to society and the engineering profession.

ALUMNI JOURNEY

Shrusti Patel

Department of Environmental Science & Technology
BATCH 2020-2024

UPL University of Sustainable Technology has been an important part of my academic and professional journey. Choosing to pursue my bachelor's in Environmental Science & Technology, which I completed in May 2025, was one of the most rewarding decisions I have made. What sets UPL University apart is its blend of academic excellence, practical learning, and industry exposure. Through laboratory sessions, field visits, industry interactions, and the guidance of experienced faculty, I developed a deeper understanding of environmental science and sustainability. The university's focus on innovation and responsible environmental practices inspired me to continually expand my knowledge. Today, I am working as Executive – Environment at Kutch Chemicals Industries Limited, Nandesari - Vadodara, where I am involved in environmental compliance and sustainable industrial practices. Every day presents new learning opportunities and motivates me to contribute towards responsible environmental management. Driven by my passion for continuous learning, I returned to UPL University to pursue the Post Graduate Diploma in Environmental Compliance & Sustainability, which I completed in 2026. The program broadened my perspective on environmental regulations, compliance frameworks, and sustainability, helping me strengthen my professional expertise. I am grateful to the faculty and mentors at UPL University for their encouragement and commitment to nurturing future environmental professionals. The supportive learning environment and emphasis on sustainability have made my time at the university truly memorable. I am proud to be an alumna of UPL University of Sustainable Technology and will always value the knowledge, experiences, and lifelong connections I gained during my journey. I look forward to contributing to a more sustainable future while carrying forward the values instilled in me by my alma mater. This version highlights UPL University without implying that it directly led to her employment at Kutch Chemicals, making it suitable for an authentic alumni feature.

ALUMNI JOURNEY

Tammana Patel

Department of Computer Engineering
BATCH 2022-2026

Looking back on my years at IPL University of Sustainable Technology, I feel grateful for the experiences, knowledge, and opportunities that have contributed to my personal and professional growth. Completing my B.E. in Computer Engineering in 2026 was an important milestone that laid the foundation for my career. The Department of Computer Engineering provided an encouraging learning environment where I was able to develop technical skills, critical thinking, and a passion for innovation. Through academic projects, workshops, seminars, and various technical activities, I gained practical exposure that helped me understand the evolving technology landscape. During my academic journey, I developed a strong interest in UI/UX Design and gradually built my skills in this field. Currently, I am working as a UI/UX Designer at Abox Agency, Surat, where I design intuitive and user-friendly digital experiences. This role allows me to combine creativity, technology, and problem-solving to create impactful design solutions. Apart from academics, the university provided numerous opportunities to collaborate with peers, participate in activities, and develop essential skills such as communication, teamwork, and leadership. These experiences have significantly contributed to my confidence and professional growth. I sincerely thank HOD Mital Patel and the faculty members and the university for their continuous support and guidance. UPL University of Sustainable Technology will always hold a special place in my journey, and I am proud to be a part of its alumni community.

ALUMNI JOURNEY

Primal Hirpara

Department of Chemical Technology
BATCH 2018-2022

I, Primal Hirpara, a proud alumni of SRICT graduated in the year 2021-22. My time at SRICT as a student of Chemical Technology (Dyes and Pigment Technology) during 2018-22 was a highly rewarding and transformative experience. The institute provided an excellent blend of academic rigor, practical exposure, and industry-oriented learning, which helped build a strong technical foundation. The dedicated faculty members played a significant role in my development through their guidance, mentorship, and constant encouragement. Well-equipped laboratories, hands-on training, and a supportive learning environment enhanced both my technical knowledge and professional confidence. The skills and values I gained at SRICT enabled me to secure a position at Subhasri Pigments before completing my final semester. Beyond academics, the institute fostered discipline, teamwork, and a commitment to continuous learning, all of which have contributed to my professional growth. I am sincerely grateful to SRICT for providing a strong platform for my career and shaping me into a confident professional. Nowadays, I am associated with Anuj Dye Chem, Gandhinagar as a Technical Officer. I encourage current students to make the most of the opportunities available and strive for excellence in their chosen field.

Mr. Monil Modi

We congratulate Mr. Monil Modi alumni Environmental Science & Technology - Batch 2016 for joining Aarti Industries LTD - Dahej as Assistant Manager.

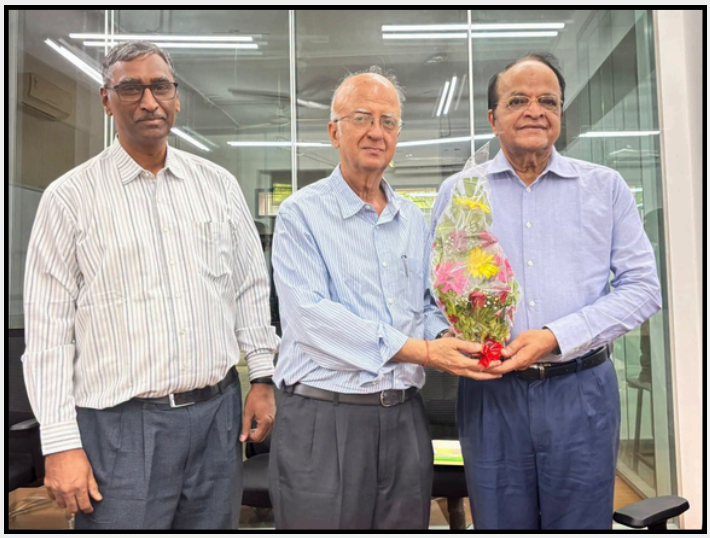

Congratulations!

Whats Happening in Campus?

Inauguration of R&D Centre & Centre of Excellence for Process Safety

A significant milestone was achieved at UPL University of Sustainable Technology with the successful inauguration of the R&D Centre and Centre of Excellence for Process Safety. The event marked the beginning of a new chapter in fostering innovation, industry-oriented research, process safety excellence, and sustainable technological advancement.

Whats Happening in Campus?

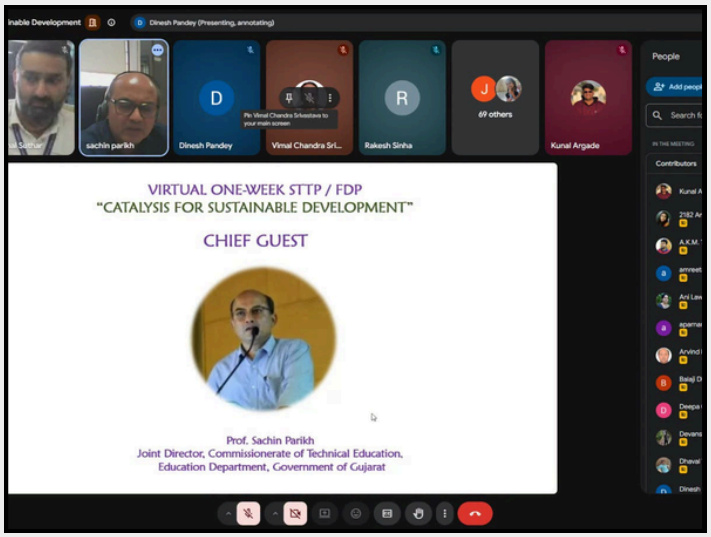

UPL University of Sustainable Technology proudly hosted its flagship Academic Excellence Awards Ceremony, "**ABHYUTTHAN- 2026**" on 23rd June 2026, celebrating the remarkable scholastic accomplishments of its students and reaffirming the University's commitment to academic excellence.

Whats Happening in Campus?

UPL University of Sustainable Technology celebrated the 12th International Yoga Day on 20 June 2026 with great enthusiasm under the theme "Yoga for Healthy Aging." The session for female staff was conducted by Ms. Bhavini Thaker, Yoga Coach of the Gujarat State Yoga Board (GSYB), while the session for male staff was led by Mr. Parasmal Jain, Sports and Cultural Coordinator.

The Department of **Chemical Engineering** commenced its one-week Short Term Training Program (STTP) on "**Catalysis for Sustainable Development**" on 22.06.2026. The inaugural session was graced by Prof. Sachin Parikh, Jt. Director, Directorate of Technical Education (DTE), as the Chief Guest.
