ALUMNI JOURNEY

Meet Patel

Department of Chemical Engineering
BATCH 2022-2026

My journey at UPL University has been a transformative experience that shaped both my technical expertise and personal growth. As a Chemical Engineering student, I built strong fundamentals through academics while gaining practical exposure through industrial training, technical projects, and research activities. Participating in conferences, student chapter initiatives, and collaborative projects enhanced my leadership, communication, and teamwork skills. One of the most valuable aspects of my journey was applying classroom knowledge to real-world engineering challenges, which strengthened my confidence and problem-solving abilities. The constant guidance from faculty members and the supportive learning environment motivated me to strive for excellence. Today, I am working with UPL Ltd. I am proud to be an alumnus of UPL University and grateful for the opportunities, mentorship, and lifelong learning that have prepared me to contribute meaningfully to the chemical engineering profession.

ALUMNI JOURNEY

Kavya Dalal

Department of Computer Engineering
BATCH 2022-2026

I am Kavya Dalal and completed BE Computer Engineering (Batch 2022-26).My journey at UPL University of Sustainable Technology has been filled with learning, growth, and many memorable experiences. As a Computer Engineering student, my college years gave me the opportunity to explore technology beyond the classroom, build meaningful friendships, and develop the confidence to step into the professional world. One of the most important moments of my journey was getting placed at BM Coder, Ahmedabad, as a QA Tester. In this role, I had the opportunity to test static and dynamic applications and websites, which gave me valuable hands-on experience and helped me understand the importance of quality, functionality, and attention to detail in the software development process. My time at the university was not only about academics. It taught me how to work with different people, face challenges, keep learning, and grow both personally and professionally. The support and guidance of my faculty members played an important role throughout this journey. I am grateful for all the experiences, friendships, and opportunities that shaped my college life. UPL University of Sustainable Technology will always be an important part of my journey, and I am proud to be a part of its alumni community.

ALUMNI JOURNEY

Aum Patil

Department of Environmental Science & Technology
BATCH 2025-2026

My journey at UPL University of Sustainable Technology has been a rewarding experience that laid a strong foundation for my career in environmental management. I completed my Bachelor of Environmental Science & Technology (May 2025), followed by the Postgraduate Diploma in Environmental Compliance & Sustainability (June 26). Both programs provided me with valuable technical knowledge, practical exposure, and a clear understanding of environmental regulations and sustainable practices. Today, I am working as an Officer – Environment at Willowood Industries Pvt. Ltd., Dahej, where I apply the knowledge and skills I gained at the university to ensure environmental compliance and promote sustainable industrial practices. I am grateful to the faculty and the university for their continuous guidance, industry-oriented education, and practical learning opportunities. My advice to current students is to stay curious, actively participate in every learning opportunity, and continuously enhance your skills. The strong academic foundation you build today will shape your future career. I am proud to be an alumnus of UPL University of Sustainable Technology and will always cherish the knowledge and values I gained here.

Spot Light- Alumni Achievements

Mr. Deepraj Patil

We congratulate Mr. Deepraj Patil alumni Chemical Engineering - Batch 2017 for his admission in Master of Business Administration from Symbiosis Institute of Business Management Pune.

Whats Happening in Campus?

Celebrating the 16th Foundation Day of UPL University of Sustainable Technology

On 16th July, 2026 we celebrated 16th Foundation Day of UPL University of Sustainability Technology. It was an experience of a memorable journey and reflections on the University's growth over the years.The celebration also reflected the spirit of unity, gratitude, camaraderie and our shared commitment to building a sustainable future.

Whats Happening in Campus?

Celebrating the 16th Foundation Day of UPL University of Sustainable Technology

On 16th July 2026 on the occasion of the **16th Foundation Day of UPL University of Sustainable Technology**, the NSS Club organized a Tree Plantation Programme on the theme: "**Ek Ped Maa Ke Naam**" (एक पेड़ माँ के नाम).

Whats Happening in Campus?

We are delighted to share that the IIChE SRICT Student Chapter has been honoured with the Best Student Chapter Award – Ankleshwar Regional Centre for the third consecutive year.

The Fusion Sports Club - Department of Chemical Engineering successfully organized a Blindfold Treasure Hunt on 8th July 2026. The event witnessed enthusiastic participation from 75 students, making it a vibrant and exciting experience.

The IIChe Student Chapter, in association with the Institution's Innovation Council (IIC), Department of Chemical Engineering, UPL University of Sustainable Technology, successfully organized the EQUIP-X Challenge on 15th July 2026 for Diploma Chemical Engineering students.

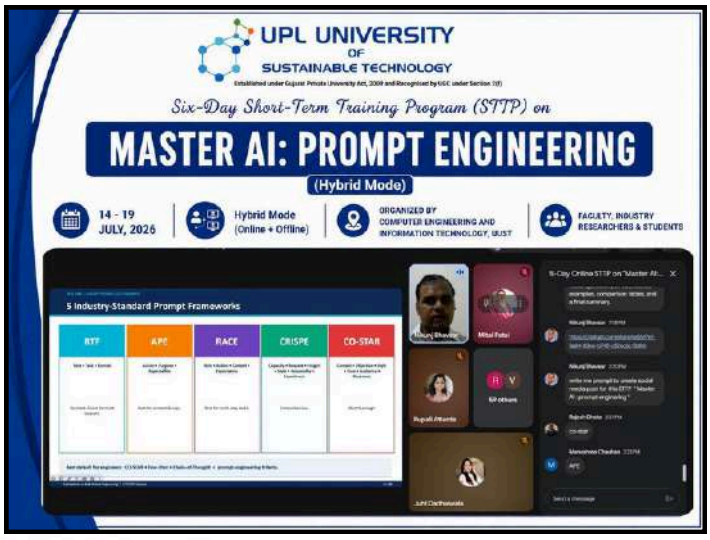

Whats Happening in Campus?

The Department of Computer Engineering, Information Technology, and Artificial Intelligence & Data Science successfully organized a Six-Day Short-Term Training Program (STTP) on "Master AI: Prompt Engineering" from 14th to 20th July 2026 in hybrid mode under the banner of SSIP, IQAC and IIC.

The Prime Minds Club of the Department of Mathematics, Science and Humanities successfully organized its first event, Sudoku Challenge, on 17 July 2026 for first semester Diploma Engineering (DE) and Bachelor of Engineering (BE) students.

The Departments of Computer Engineering, Information Technology, and Artificial Intelligence & Data Science successfully organized the "AI Pitch Deck Competetion" on 20 July 2026. More than 40 students enthusiastically participated, presenting innovative ideas and entrepreneurial solutions powered by Artificial Intelligence.

Whats Happening in Campus?

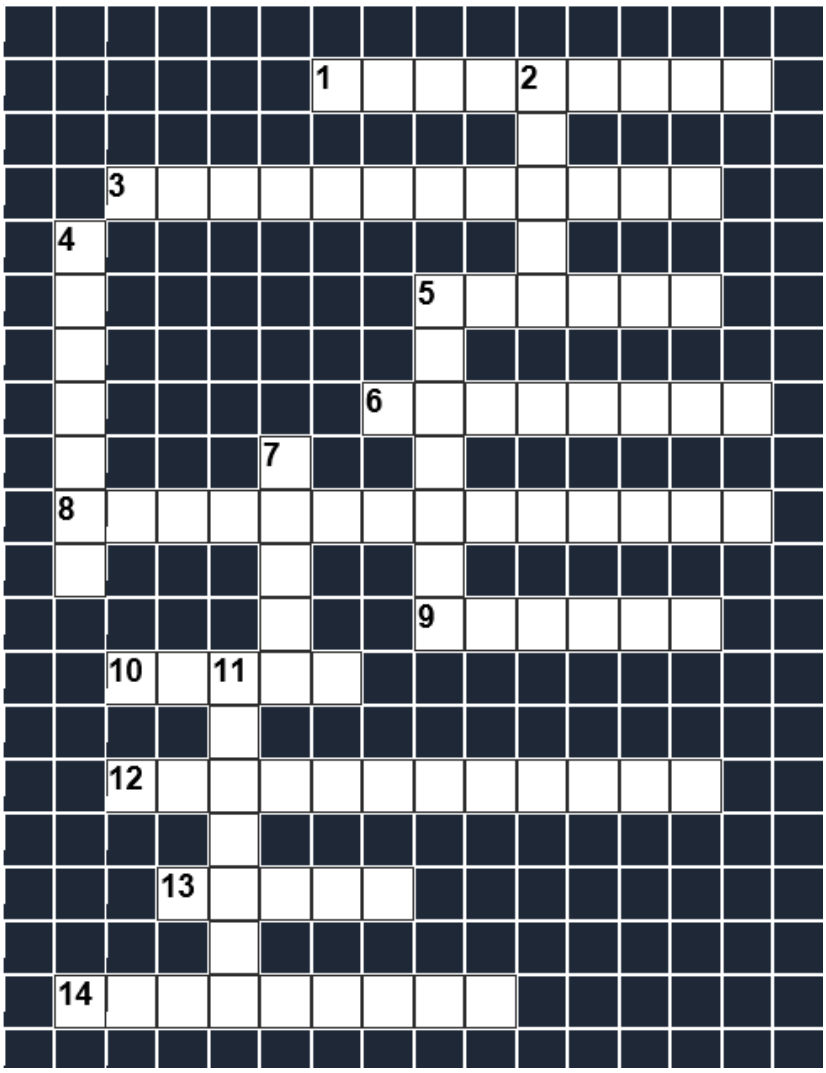

The MicroMinds Club, under the Department of Microbiology, Biotechnology, SRICT-Institute of Science and Research, UPL University of Sustainable Technology, successfully organized the Vaccine Through Art competition to encourage students to creatively depict the importance of vaccines and immunization through artistic expression.

On 29th July 2026, the NSS Club of UPL University of Sustainable Technology organized a Poster Making and Presentation Competition as part of the De-Addiction Awareness Campaign to inspire students to lead a healthy and addiction-free life.

The Department of Microbiology, SRICT – Institute of Science and Research, UPL University of Sustainable Technology , successfully organized a " Hands-on Training on Mushroom Cultivation" on 28th July 2026. The training was conducted with the objective of providing participants with practical knowledge and technical skills in mushroom cultivation while promoting sustainable agriculture and entrepreneurship.

ACROSS

1. A resource that is naturally replenished, such as sunlight or wind. (9)
3. Protection and careful use of natural resources. (12)
5. An element whose dioxide form is a major greenhouse gas. (6)
6. An economy designed to reuse, repair and recycle materials. (8)
8. The ability to meet present needs without harming future generations. (14)
9. The capacity to do work; conserving it reduces environmental impact. (6)
10. A common term for environmentally responsible choices. (5)
12. The variety of living organisms in an ecosystem. (12)
13. Energy obtained from sunlight. (5)
14. Processing used materials so they can be made into new products. (9)

DOWN

2. A vital natural resource that should be used efficiently. (5)
4. Nutrient-rich material made from decomposed organic waste. (7)
5. The long-term pattern of weather in a region. (7)
7. Unwanted material that should be reduced, reused or recycled. (5)
11. The study of relationships between organisms and their environment. (7)

From the Editors Desk

Request you to please solve the puzzle published in the fun zone section and send it on the below mentioned Email ID. Name of winners will be published in the next edition.
